PROFESSIONAL EXPERIENCE

Software Developer — Nidoos FZC LLC — Jan 2026 – Present

Sharjah, UAE

- Built a scalable multi-vendor e-commerce platform for books and stationery, comprising a customer storefront, vendor portal, and admin dashboard, using Next.js,and TypeScript.
- Integrated 150+ REST APIs powering product catalog, cart, checkout, order tracking, and vendor inventory management across all three portals.
- Optimized frontend performance by reducing redundant API calls and re-renders through centralized state management with Context API and Zustand.
- Localized the platform in Arabic and English with i18n, including full RTL/LTR layout support.
- Deployed the application through a CI/CD pipeline, automating build and release workflows.

MERN Stack Trainee — Luminar Technolab — May 2025 – Dec 2025

Kerala, India

- Developed full-stack web applications using React.js, Node.js, Express.js, and MongoDB with responsive UIs.
- Designed RESTful APIs with secure JWT-based authentication and authorization to control access.
- Integrated third-party APIs and used Git/GitHub for version control and collaborative delivery.

PROJECTS

AskPDF — AI PDF Assistant | *Python, FastAPI, LLM, RAG Pipeline* Github

- Built an AI PDF assistant that summarizes pdfs and answers questions about them using RAG.

TradeFlow ERP — Enterprise ERP System | *Next.js 14, NestJS, TypeScript, Prisma 7, PostgreSQL, Neon DB* GitHub

- Built an ERP with eight interconnected modules and role-based access control using NestJS JWT Guards, Prisma, and PostgreSQL.

HomeServe — Home Services Platform | *React.js, Node.js, Express.js, MongoDB, JWT* GitHub

- Developed a home services platform with 20+ REST APIs, JWT authentication, RBAC, and an admin dashboard.

BookStore — Used Books E-commerce Platform | *React.js, Node.js, Express.js, MongoDB, JWT, Stripe* GitHub

- Built a marketplace with secure authentication, Stripe payments, admin approval workflows, and full CRUD.
